

CALL FOR PAPERS

CMS 2003

Seventh IFIP TC-6 TC-11 Conference on Communications and Multimedia Security October 2-3, 2003, Turin (Italy) Organized by: *Politecnico di Torino*

CMS 2003 is the seventh working conference on Communications and Multimedia Security since 1995. State-of-the-art issues as well as practical experiences and new trends in the areas will be the topics of interest again, as proven by preceding conferences. This year the organizers especially encourage submissions on advanced topics such as security of wireless networks, survivability of critical communication infrastructures, and protection of electronic documents.

TOPICS

We solicit papers describing original ideas and research results on foundations and applications related to the Communications and Multimedia Security area. Suggested topics include - but are not limited to:

- *Applied cryptography*
- *Biometry*
- *Combined multimedia security*
- *Communications systems security*
- *Critical information infrastructure protection and social implications*
- *Cryptography - steganography*
- *Digital signatures*
- *Digital watermarking*
- *Implementation, deployment and management of security policies*
- *Integrity and internal control in business application*
- *Internet, intranet and extranet security*
- *Legal, social and ethical aspects of communication systems security*
- *Mobile communications security*
- *Multilateral Security*
- *Multimedia systems security*
- *Network Protocol Security*
- *New generation networks (NGN) security*
- *Organizational issues in implementing security measures*
- *Possible attacks on multimedia systems*
- *Secure electronic commerce*

INSTRUCTIONS FOR AUTHORS

Papers and submissions must be written in English. Papers should be limited to 5500 words, full page figures being counted as 400 words. Each paper must include a short abstract and a list of keywords indicating subject classification, and its introduction should summarise the contributions of the paper at a level appropriate for a non-specialist reader. The paper must be anonymous, with no author names, affiliations, acknowledgements, or obvious references. Acceptance of a paper means an obligation for at least one of the authors to attend the conference and present the paper.

Authors are asked to submit original papers only. Papers that have previously been published and papers that are currently being considered for publication by another journal or conference are not eligible. All submitted papers will be refereed by members of the International Program Committee for correctness, originality, relevance to the conference, and quality of presentation.

The proceedings will be published by Kluwer Academic Publishers and will be available at the conference. To request info or to submit an expression of interest, send email to: info.cms2003@security.polito.it or visit <http://security.polito.it/cms2003/>

VENUE

The conference will take place in Turin, first capital of Italy and a leading Italian city in the field of Information and Communication Technology. Turin has many famous historical monuments and museums, and a beautiful centre in 17th century baroque style with around 20 Km of arcades. The region around Turin is famous for production of some of the best Italian wines (Barolo, Barbaresco, ...) and food. More tourist information at <http://www.comune.torino.it/english/>

IMPORTANT DATES

Deadline for submission: March 18, 2003 (extended)
Notification of acceptance: April 28, 2003
Camera-ready papers: May 26, 2003

GENERAL CHAIR

Antonio Lioy, Politecnico di Torino, Italy
